KEY SYSTEM OPTIONS

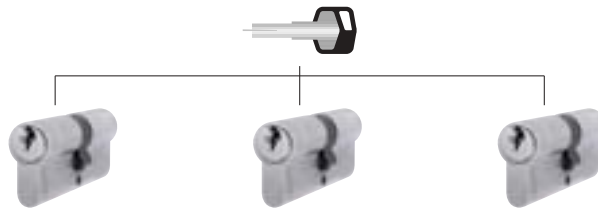

KD KEYED TO DIFFER

A single cylinder with keys

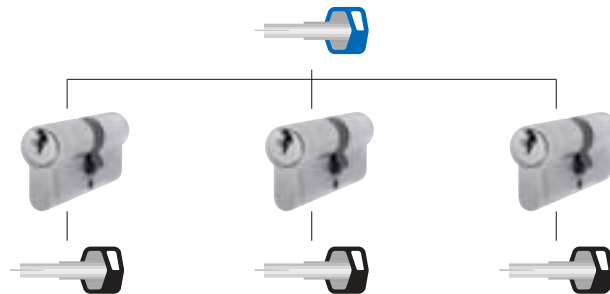

KA KEYED ALIKE

All doors open by the same key

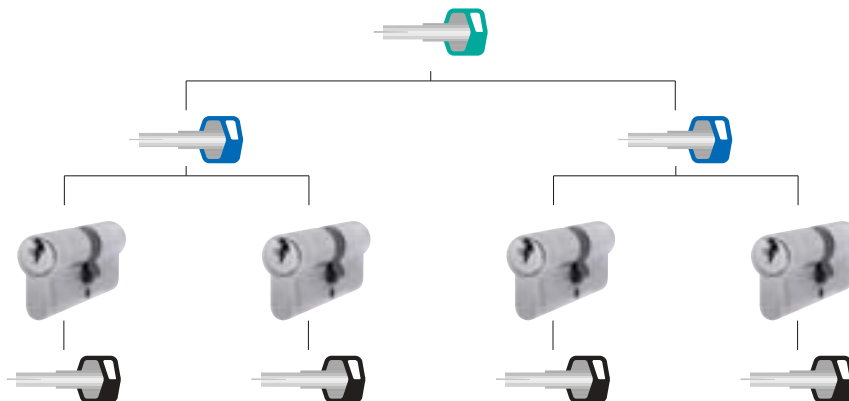

MK MASTER KEYED SYSTEM

A single master key opens all the cylinders in the system, while each of the individual keys opens its own cylinder

GMK GRAND MASTER KEY SYSTEM

A master key opens only own group of cylinders and a grand master key opens all cylinders

CK CONSTRUCTION KEY

The construction key is used during installation, the main key is used to recode the cylinder and to automatically exclude the construction key.
